

Metwally Sayed Metwally

Senior Frontend Engineer

Cairo, Egypt | metwallysayed1999@gmail.com | +20 120 200 0057 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 4 years of experience building production applications using React.js, Next.js, and TypeScript. Experienced in SaaS dashboards, Arabic/RTL platforms, CMS and business operations systems, API integrations, testing, SEO, and frontend performance.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer Remote, Saudi Arabia
MAAAL Dec 2025 – Present

- Delivered frontend systems for **MAAAL**, **MAAAL Capital**, and **Riyadh Chamber** using **Next.js**, **TypeScript**, **SSR**, **reusable components**, and **Arabic/RTL UI**.
- Architected an internal **Arabic CMS and business operations platform** with **10+ modules**, role-based access, forms, tables, filters, and API-driven workflows for editorial and business teams.
- Built ads, SEO, performance, and deployment workflows, including **12+ ad placements**, GitHub Actions, Vercel previews, and optimizations achieving **90+ Lighthouse SEO** and **85+ Performance**.

Senior Frontend Engineer Egypt
Eco Digital Solutions Dec 2024 – Dec 2025

- Built the **Arabian-Fal dashboard** with **React.js**, **TypeScript**, **MUI**, **charts**, **filters**, and **APIs**, delivering **15+ interactive data views** for business reporting.
- Delivered frontend features for **Avancer AI** and **OBM** using **Next.js**, **TypeScript**, **Tailwind CSS**, **TanStack Query**, **GraphQL**, and **REST APIs**.
- Improved reliability through **Jest**, **React Testing Library**, **code reviews**, **debugging**, and **reusable UI patterns**, while contributing to React Native applications.

Frontend Engineer Remote, Saudi Arabia
Dafaa Oct 2023 – Nov 2024

- Migrated **6+ products** from Wix to **Next.js** and **Tailwind CSS**, improving page speed by up to **40%** and increasing maintainability, SEO, and responsiveness.
- Delivered production websites for **Dafa**, **Masarat**, and **Creative Core** using reusable and responsive UI components.
- Built **Gefar** using Next.js, Tailwind CSS, TanStack Query, and API integrations, and contributed to **Maqsafy**, **Wsal**, and **Riyadh Schools Almalqa** React Native apps.

Frontend Engineer Remote, Ontario, Canada
TekRek Oct 2022 – Sep 2023

- Developed the **Booksportz admin and supplier portals** across **8+ modules** using React.js, MUI, Redux, Apollo Client, and GraphQL.
- Built reusable forms, tables, filters, dashboard components, and data-driven screens supporting admin and supplier workflows.
- Collaborated with remote product and backend teams to deliver features, integrate APIs, resolve bugs, and improve dashboard usability.
